Collection 2026

**135**  
YEARS

# Where excellence meets transparency

## **We make details**

From the largest celebrations to family gatherings, every moment is unique and it's in the small details that make the difference. In our factory, we not only produce quality glass, but we are also helping to create your most precious memories.

## **Our history behind every glass**

At VICRILA we have been manufacturing table glass since 1890. Our experience and quality make us a benchmark in the hospitality sector.

Our mission is to accompany our customers by providing them with the best solutions in table glassware, adapting to their real needs and offering the best service to boost their business together with them.

# We combine lightness with maximum resistance

We know that the hospitality professional needs resistant products that can withstand the pace and demands of service, while at the same time providing a unique experience in terms of elegance and aesthetics.

Our tempered products manage to combine the thinnest possible wall with exceptional resistance.

# Manufactured to provide functionality

The best way to demonstrate the functionality and attributes of our products is by testing them in real in-service environments.

Scan the QR code to check the **resistance** of our high-intensity use products.

## Tempered = High Intensity Use

A much more resistant product.

We guarantee unrivalled mechanical and thermal resistance.

VICRILA glasses are designed for HIGH INTENSITY USE from the mouth to the base, offering a much more resistant product, where the glass does not break or crack easily.

- ⊕ Resistance
- ⊕ Safety
- ⊕ Durability
- ⊖ Replacements
- ⊖ Breaks

—  
Scan the QR to see the **elegance** of our sheer rim.

## Sheer Rim

Pure and elegant

A technical treatment that brings comfort and sophistication to the finish of each item. This impeccable cut not only enhances the aesthetics, but also awakens your senses, taking every experience to a higher emotional level.

—  
Scan the QR to see how **easy it is to use** during service.

## Lightness

Less weight, more resistance

We design items that are slimmer and 15% lighter across all our ranges, while maintaining unrivalled strength. Lightness not only adds elegance, but also facilitates a more agile service.

- ⊕ Easy to handle
- ⊕ 15 % Lightness
- ⊕ Stylised

Scan the QR to discover the advantages of our **stackable products**.

## Stackability

Our strength

Optimise your space with our stackable products, which save up to 60%. In addition to gaining space, stackability makes handling items quicker. All are designed with tempered strength to stand up to professional use.

- ⊕ Space saving
- ⊕ Easy to collect and handle
- ⊕ Tableware hygiene
- ⊕ Safety

### Maximum oxygenation

Experience excellence in tasting with items designed to maximise oxygenation. The shape of our products elevates the perception of smells and flavours with every sip.

### Filling level indicator

The change of shape in the profile of the article serves as a filling indicator for proper capacity. On the other hand, by pouring the correct amount of liquid, we leave the necessary space in the container for the aromatic components.

### Large surface to decorate

Personalise your items with the peace of mind that comes from having a large space to decorate. Your message, brand or design will have the visibility it deserves by having a large surface to work on.

### Perfect Height

Items with this attribute are perfect for making the most of the space inside the dishwasher, without running the risk of breakage due to incorrect placement.

Ideal to accommodate standard size wash baskets.

### Visual increase in capacity

Our items are not only visually appealing, but also visually increase the amount of liquid contained in the item. This design attribute allows for greater performance in beverage service.

# Vicrila Commitment

At Vicrila, we work every day to offer you confidence and peace of mind. We are committed to always being by your side, ensuring that you receive reliable service and solutions tailored to your needs.

## History and heritage

Manufacturing since 1890.

At Vicrila, we have been manufacturing glass in Leioa, Spain, for over 135 years.

Our long history allows us to combine experience, innovation and design to create products of the highest quality that adapt to the current needs of our customers.

## Service and stocking

Reliability in every delivery.

Our commitment is to ensure you always find what you need.

Thanks to our high stock levels, we can guarantee immediate availability and on-time deliveries, offering peace of mind and confidence to our customers worldwide.

# It's for you, hotelier

This collection is designed to become your ally, because the durability and efficiency of the item are the real protagonists.

Our aim is to simplify your everyday life with ergonomic designs, unbreakable and therefore more durable items or space-saving cups that allow for agile handling.

Therefore, with durability as our flagship, this collection is more than just a set of cups and glasses; it is a tribute to the passion that beats at the heart of the hospitality industry.

Discover the perfect harmony between functionality and style, and let each glass tell the story of impeccable, long-lasting service.

Centimeters

# Reference guide for matching glassware sizes to standard washing racks

**To Determine Compartment Size**  
**Full Size Racks:**  
 Place glass or stemware upside down over circle chart. Look down on the glass. Whatever circle the largest diameter of the glass fits within will determine the number of compartments.

On each page, under this icon, you will find the recommended rack for each item.

## Glass care & Handling

<p>Do not stack tumblers and glasses that they do not have the capacity to stackability.</p>	<p>Do not use glassware for storage of flatware.</p>	<p>Separate glassware, flatware and plates in bus trays.</p>
<p>Never pick up glasses in bouquets.</p>	<p>Never pour cold liquid into a hot glass, such as one just out of the dishwasher, or hot liquid into cold glass.</p>	<p>Never scoop ice with a glass. Use a plastic scoop.</p>
<p>Empty ice from glass before sorting bus tray, this allows more time for the glass to reach room temperature before washing.</p>	<p>Utilize the correct rack system for tumblers and stems. A divided rack is always recommended.</p>	<p>Thermal shock: The result of a rapid temperature change in the glassware which can crack the stem. Only in non-tempered stem.</p>

## Recommended care & maintenance of crystalline

<p>Amazing sound</p>	<p>Excellent brilliance</p>	<p>Impact strenght</p>
<p>Dishwasher safe</p>	<p>Pressure sustainability</p>	<p>Temperature resistance</p>

- It is possible to use a dishwasher for washing other glass products. In such cases, set the dishwasher at a glass-friendly program running at low temperature, and open its door as soon as the washing cycle finishes. Condensed vapors cause harm to glass.
- When handling the glass, avoid any contact with hard objects including other glass; there is a danger of being scratched.
- Products are not intended to be used for serving hot beverages or placed in microwave ovens.
- Handle the product carefully to avoid either damage or injury, and never allow children to handle the glass.
